SOUTH CAROLINA SECOND INJURY FUND

William E. Gunn

Interim Director

MISSION

The Second Injury Fund functions within the South Carolina Workers' Compensation System. The mission of the Fund is twofold:

1. To protect employers from the higher cost of insurance that can occur when an injury combines with a prior disability to result in substantially increased medical or disability costs than the accident alone would have produced. This ensures that an employer is not made to suffer a greater monetary loss or increased insurance costs because they hire or retain an employee who has a disability.

2. To ensure payment of workers' compensation benefits to injured employees whose employers have failed to comply with the coverage provisions of the Workers' Compensation Law.

ORGANIZATIONAL VALUES

- Administer claims in a fair and impartial manner
- A highly professional and well-trained staff
- Continuous improvement of services

GOALS AND OBJECTIVES

The performance expectations of the agency, as a whole, and of each individual are reviewed regularly to ensure that we continue to meet or exceed the goals and objectives outlined. These goals and objectives are directly related to the agency's organizational values.

Goals

- The orderly phase-out of the Fund in June 2013.
- To protect employers from increased workers' compensation insurance cost.
- To ensure payment of workers' compensation benefits to injured employees whose employers are in violation of the Workers' Compensation Law.

Objectives

- Prompt determination of eligibility
- Efficient claims processing and payments
- Contain claims cost
- Sound fiscal management

YEAR IN REVIEW

We accepted 783 claims, of these 57% or 446 were within 4 years of the date of accident. This ensures that these claims should not adversely affect the employers' workers' compensation insurance premium.

This year 597 employees benefited from the Uninsured Employers' Fund.

The Fund's major achievements for Fiscal Year 2009 are summarized below:

- **Customer satisfaction scores remained high**
- **Cycle time to pay claims is lowest when compared to "like" funds**
- **Annual assessment reduced by \$24.7 million**
- **Claim and administrative cost continue to be less than published average for the private sector and "like" funds**
- **Uninsured Employers' Fund payout reduced \$4.8 million by finding other coverage**

This was the second year that the 135% factor was used in the calculation of the annual assessment. This change, brought about by the 2007 Workers' Compensation Reform Act (S. 332), resulted in a \$45.8 million reduction in the assessment levied on carriers in September 2008. This reduction, along with the reduction of \$47.9 in FY07, equates to a saving on the annual assessment of \$93.8 million in the past two years. In order to assist carriers financially, we allowed the assessment to be paid in two payments. The first payment was due November 1st and the second payment on May 1st.

This year's statistics show that the 2003 amendments to our law are finally having the results anticipated. The amendment did away with the "unknown condition" as a reason to meet the knowledge requirement. The table below shows a 65% reduction in accepted claims over the past six years. Of the 2,219 claims accepted in FY 2004, 1,964 or 88.8% were for the "unknown condition" compared to the 783 claims accepted in FY 2009 and only 135 or 17.2% being for the 'unknown condition'. We can expect further reductions in the acceptance of these type claims.

	FY 2004	FY 2005	FY 2006	FY 2007	FY 2008	FY 2009	% Reduced
Claims Accepted	2,219	1,922	1,184	887	861	783	65%

This year we are beginning to see the effects the 2007 Workers' Compensation Reform Act is having on the Second Injury Fund. New and reopen claims for FY09 have seen a reduction of 52.6% from the 9,536 claims in FY08 versus the 4,521 claims in FY09. This resulted in a 36.6% reduction in the number of open claims carried forward into FY10, 5,566 claims carried forward into FY10 versus 8,781 in FY09. We expect this downward trend to continue.

The total reimbursements for FY09 showed a small reduction from FY08. However, this reduction, along with the reductions from the previous two fiscal years,

equates to a 24% reduction over the last three fiscal years. We predict the reimbursements will continue to drop along with the number of claims accepted. We continue to have carriers reopening claims that are many years old and providing documentation for acceptance. The result being of the 783 claims accepted in FY09, 337 claims or 43% were accepted more than 4 years from the date of accident. In these cases some employers may not receive any benefit in the experience modification used in their premium calculation.

One of our strategic challenges was to reduce the use of contract attorneys in the Uninsured Employers' Fund's claims process. This would contain claim costs and be sound fiscal management of these claims. The table below shows a 67% reduction in attorney/legal fees over the high of \$1,286,925 in FY 2007 versus \$423,050 in FY 2009. This reduction is a major factor in the 40% decrease of the Uninsured Employers' Fund Administrative Cost Ratio for FY 2009.

	FY 2006	FY 2007	FY 2008	FY 2009
Attorney Fees	\$808,636	\$1,057,487	\$555,705	\$343,469
Legal Fees	\$143,048	\$ 299,438	\$151,947	\$ 79,581
Total	\$951,684	\$1,286,925	\$707,652	\$423,050

The Workers' Compensation Reform Act (S. 332) was ratified and signed by the Governor in FY 2007. It included several changes that will affect the handling and administration of Uninsured Employers' Fund claims. These changes are those that affect all carriers and self-ensured employers/funds that report and collect premiums and adjust workers compensation claims in South Carolina.

The major effect the Act has on the Second Injury Fund is that we are in "run-off" posture and will be terminated effective July 1, 2013. The following table is a brief outline of the events/actions and their effective dates as specified in the Act for the orderly termination of the Second Injury Fund

Effective Date	Event/Action
July 1, 2007	New notice requirements.
July 1, 2007	The 175% factor used in the assessment calculation reduced to 135%.
July 1, 2008	No claims accepted with date of injury of July 1, 2008, or after.
December 31, 2010	Last day to submit notice of a new claim.
July 1, 2011	All data to either accept, compromise or deny a claim must be received by the Fund.

December 31, 2011	Last day for the Fund to accept a claim for reimbursement.
July 1, 2013	The Uninsured Employers' Fund is transferred to the State Accident Fund.
July 1, 2013	The Second Injury Fund is terminated and all remaining obligations and residual activity are transferred to the Budget and Control Board for the orderly winding down of the affairs of the Fund.

The Second Injury Fund conducts an annual customer survey to measure customer satisfaction. Customers evaluate our performance using a four point Likert Scale. Additional space is provided for written comments and to answer open-ended questions. We use this information to determine customer expectations and to gather recommendations on improving services. This information is compiled and trends are noted and distributed to all employees.

We use the percentage of positive responses to determine trends. The results for the past eight years are shown below:

We compare our customers' satisfaction against the American Customer Satisfaction Index (ACSI) produced by the American Society for Quality. The index is nationally recognized and provides industry specific measures of customer satisfaction. The results of the customer survey are converted to a comparable scale of 0 –100 and then measured against the indexes of the insurance industry and public administration. The results shown indicate that the Second Injury Fund is equal to or exceeds the ACSI for the comparable industries. ACSI data is not available for Public Administration for FY2008 and FY2009 and the Insurance Industry for FY 2009.

Customer Satisfaction Compared to ACSI

We measure the savings on the annual assessment caused by our internal review of reimbursements. By ensuring we only reimburse the amounts allowed by the Workers' Compensation Commission Medical Fee schedule and compensation ordered we continue to have a positive effect on the assessment process. The chart below shows that our internal review of reimbursements led to a \$24.7 million reduction in the annual assessment for FY 2009.

Savings Achieved on Annual Assessment by Administrative Review

The Fund measures the number of days needed to process claim reimbursements. We compare our performance with “like” second injury funds in Georgia and Louisiana because their law is very similar to South Carolina Law. We have set the standard for the expeditious processing of claim payments.

Average Days to Pay Claims

The below chart shows the Second Injury Fund’s average cost per claim compared to “like” funds from Georgia and Louisiana. Over the past seven years we have set the standard. Louisiana data is not available for FY2006.

Second Injury Fund Administrative Average Cost per Claim

We compare the Uninsured Employers’ Fund with private carriers and the State Accident Fund. The chart reflects that we are meeting our expectations by keeping our cost ratio lower than that of the private industry. FY 2009 data for private carriers is not available.

Uninsured Employers' Fund Administrative Cost Ratio

We must actively investigate all Uninsured Employers' Fund claims to ensure no other coverage is available to pay benefits to the injured employee, saving the Fund from these payments. The chart below shows the amount of funds saved by the investigation process that found 269 claims with other coverage.

Savings from Other Coverage Found

SECOND INJURY FUND

Director

The administration and operation of the Fund is the responsibility of the director who is appointed by and serves at the pleasure of the Budget and Control Board.

Deputy Director

Under the supervision and management of the deputy director are the Fund's four functional divisions.

Claims

The Claims Division is responsible for the investigation, evaluation and development of action to reach a final decision for each claim. Conflicts of a non-judicial matter are resolved in the claims division.

Recoveries

The Recoveries Division is responsible for the recoupment of all benefits, costs and expenses paid by the Uninsured Employers' Fund. These recoupments are levied against the employer or whoever was legally responsible for payment of the claim.

Legal

The Legal Division represents the Fund in contested hearings before the Workers' Compensation Commission and in all appeals to higher courts.

Administrative

The Administrative Division is responsible for all internal programs such as assessments, finance, budgeting, human resources and staff development. They are also responsible for the administrative support to the Director, Deputy Director and the other three divisions.

KEY PERSONNEL

Peter J. Calamas, Jr., Director of Claims

RECOVERIES DIVISION

Ann P. Corley, Director of Recoveries

LEGAL DIVISION

Latonya D. Edwards, General Counsel

ADMINISTRATIVE DIVISION

Deborah M. Manning, Administrative Manager

STATUTORY AUTHORITY FOR THE AGENCY

Section 42-7-310 of the South Carolina Workers' Compensation Law creates the Fund and establishes the agency to administer the Fund in accordance with the provisions of Sections 42-9-400 and 42-9-410.

CRITERIA FOR REIMBURSEMENT

Before the Fund can reimburse an employer, a disabled worker must suffer a subsequent injury. This injury must combine with or aggravate the prior permanent physical impairment, thus causing liability substantially greater than that which would have occurred from the subsequent injury alone. This is the basic concept of Second Injury Fund legislation, and without this substantial increase in liability, the employer has not been placed at a disadvantage. Therefore, he would not be eligible for reimbursement.

The following outline lists the basic requirements for reimbursement:

1. The employee must have a prior permanent physical impairment of such seriousness as to constitute a hindrance or obstacle to obtaining employment or re-employment.
2.
 - (a) The employer must prove that he had knowledge of the permanent physical impairment at the time the employee was hired or retained when a claim is made for reimbursement; or
 - (b) The employer may qualify for reimbursement if he can prove that he did not have prior knowledge of the employees pre-existing physical impairment, because existence of such condition was concealed by the employee.
3. The employee must sustain a subsequent occupational injury:
 - (a) Which results in the employers' liability for disability and/or medical cost that is substantially greater than that which would have resulted from the new injury alone because of a combination with or aggravation of the prior impairment.
 - (b) Which most probably would not have occurred "but for" the presence of the prior impairment.
 - (c) Which results in death, and the death would not have occurred except for the pre-existing impairment.
4. Prior to reimbursement from the Fund, the insurer shall be required to certify that the medical and indemnity reserves have been reduced to the threshold limits of reimbursement.

ASSESSMENTS

Section 42-7-310 subsection (d) of the Workers' Compensation Laws of South Carolina states that:

The funding of the Second Injury Fund on a continuing basis shall be by equitable assessments upon each carrier (which, by definition herein, shall include all insurance carriers, self-insurers, and the State Accident Fund) in a manner as follows:

Equitable assessments upon each carrier which, as used in this section, includes all insurance carriers, self-insurers, and the State Accident Fund. Each carrier shall make payments to the fund in an amount equal to that proportion of one hundred thirty-five percent of the total disbursement made from the fund during the preceding fiscal year less the amount of net assets in the fund as of June thirtieth of the preceding fiscal year which the normalized premium of each carrier bore to the normalized premium of all carriers during the preceding calendar year. Each insurance carrier, self-insurer, and the State Accident Fund shall make payment based upon workers' compensation normalized premiums during the preceding calendar year. The charge to each insurance carrier is a charge based upon normalized premiums.

These assessments were sent to each carrier in August 2009 and payments subsequently received by the Second Injury Fund.

135% of the Disbursement is	\$154,524,985.96
Less Remaining Net Assets @ June 30, 2009\$40,250,447.92
Equals SIF Assessment for 2008-2009\$114,274,538.04

This assessment (\$114,274,538.04) divided by the aggregate normalized premium for all carriers (\$1,025,661,349.00) equals the assessment rate (.111415467) applied to each carrier.

**SOUTH CAROLINA WORKERS' COMPENSATION UNINSURED
EMPLOYERS' FUND**

The State Workers' Compensation Insolvency Fund, S.C. Code Section 42-7-200, was established on February 24, 1982. On April 26, 1989, an amendment to this Act placed the administration of the Fund with the South Carolina Second Injury Fund. On June 12, 1990, it was changed to the South Carolina Workers' Compensation Uninsured Employers' Fund.

The mission of the Uninsured Employers' Fund is to ensure payment of workers' compensation benefits to injured employees whose employers have failed to acquire necessary coverage.

For a claim to come within the scope of the Uninsured Employers' Fund, there must first be a finding by the Workers' Compensation Commission that an employer is subject to and in violation of the Workers' Compensation Law as a result of their failure to provide the necessary insurance coverage. If that determination is made, the Fund may then consider the merits of an employee's claim and pay or defend the claim as it deems necessary. Once the Uninsured Employers' Fund has paid a claim, it is entitled by statute to recover the benefits, costs and expenses from the employer or whoever is legally responsible for payment.
